DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG-2011-0973]

Drawbridge Operation Regulation; Lake Washington Ship Canal, Seattle, Wa

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Thirteenth Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Burlington Northern Santa Fe Railway Bridge across the Lake Washington Ship Canal, mile 0.1, at Seattle, WA. The deviation is necessary to facilitate replacement of a counterweight trunnion bearing. This deviation allows the bridge to remain in the down or closed position during the maintenance period.

DATES: This deviation is effective from 8 p.m. on November 8, 2011 through 5 p.m. on November 22, 2011.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG-2011-0973 and are available online by going to

http://www.regulations.gov, inserting USCG-2011-0973 in the "Keyword" box and then clicking "Search". They are also available for inspection or copying at the Docket Management

Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT If you have questions on this rule, call or e-mail the Bridge Administrator, Coast Guard Thirteenth District; telephone 206-220-7282 e-mail randall.d.overton@uscg.mil. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION: Burlington Northern Santa Fe (BNSF) Railway has requested to not open the BNSF Rail Bascule Bridge across the Lake Washington Ship Canal, mile 0.1, for vessel traffic for a 14 day period to facilitate heavy maintenance on the bridge. The bridge provides 43 feet of vertical clearance above mean high water while in the closed position. Under normal operations this bridge opens on signal as required by 33 CFR 117.5 and 33 CFR 117.1051(c). The deviation period is from 8 p.m. November 8, 2011 through 5 p.m. November 22, 2011. This deviation allows the draw span of the BNSF Railway Bridge across the Lake Washington Ship Canal, mile 0.1, to remain in the closed position and to not open for maritime traffic from 8 p.m. November 8, 2011 through 5 p.m. November 22, 2011. This time frame was selected because it corresponds with the

closure of the Army Corps of Engineering Hiram M. Chittenden

lock immediately upstream or inland of the bridge on the

Lake Washington Ship Canal. This stretch of the Lake

Washington Ship Canal experiences heavy waterway usage and

is utilized by vessels ranging from commercial tug and barge

to pleasure craft. Mariners have been notified and will be

kept informed of the bridge's operational status via the

Coast Guard Notice to Mariners publication and Broadcast

Notice to Mariners as appropriate. Vessels which do not

require a bridge opening may continue to transit beneath the

bridge during this closure period. Due to the nature of work

being performed the draw span will be unable to open for

maritime traffic during this maintenance period.

In accordance with 33 CFR 117.35(e), the drawbridge must

return to its regular operating schedule immediately at the

end of the designated time period. This deviation from the

operating regulations is authorized under 33 CFR 117.35.

Dated: October 26, 2011

RANDALL D. OVERTON

Bridge Administrator
